

Pay Pool Administrator Advisory

2017- 19

Issue Date: November 28, 2017

Topic: ALTESS Service Desk Switch Maintenance for Information Assurance Vulnerability Maintenance

Discussion: The ALTESS Service Desk has scheduled network maintenance on Wednesday November 29, 2017, 5:30PM (1730) EST to 10:30 (2230) EST. Systems such as CAS2net may experience intermittent outages. This has to be done in order to provide the best possible service and support to your organization and ultimately the Warfighter. This will also enable CAS2Net to operate at peak performance as well as comply with the most updated security measures as well as deliver a cost effective and sustained level of availability.

Note: If you have any questions, or experience any issues please contact your Service Desk.
