

CAS2Net Administrator Advisory

2021-21

Issue Date: 8 November 2021

Topic: 2021 Compensation Management Spreadsheet v2

Discussion: If you have the Supervisor and/or Team Lead Cash Differential in your pay pool then you should use Version 2 of the 2021 CMS to see the correct value of the 2021 cash differential. An error in Version 1 had the 2021 Supervisor Differential Amount in Column CS calculating on Column CO (New Base Pay 2022) instead of Column R (CY2021 Pay Used in CRI Calculations). This error did not generate the 2021 supervisor differential amount in Column CS as it should for panel members to compare to the new supervisor differential amount in Column CU.

18	MARTIN	PURPLE	\$102,425	\$118,762	\$104,732						
19	ROBIN	AMERICAN	\$143,598	\$166,502	\$146,757	Supv	18-Jan-21	10.00%	\$14,675	10.00%	\$14,676
20	SPARROW	CHIPPING	\$89,139	\$103,357	\$90,639						

Version 2 of the 2021 CMS corrected this error to calculate Column CS on Column R instead of Column CO. If you had prepared your CMS for a pay pool panel meeting or started your pay pool panel process and need to save the scores and other decisions then export and upload to CAS2Net before downloading and importing to CMS v2.

Action: If your pay pool offers the Supervisor and Team Lead Cash Differential then download the 2021 CMS v2 from Pay Pool Notices. Again, if you had prepared your CMS for a pay pool panel meeting or started your pay pool panel process and need to save the scores and other decisions then export and upload to CAS2Net before downloading and importing to CMS v2.

If your pay pool does not offer the Supervisor and Team Lead Cash Differential, you may continue using the 2021 CMS v1.
